To: Mike Leason
From: Neil Edgar

Mike –

Evan is still working to develop a consensus on this issue with CRRC Board. He will push the item at their next board meeting, in the hopes of providing testimony in support. He plans on being at the February 10 meeting.

Meanwhile, the California Compost Coalition, whom we also represent, is in support of the recommendations put forth by your staff. The CCC particularly favors the exemption from the mil fee for biodegradable plastics in the hope it will facilitate the continued production, and possibly expanded production, of compostable plastics, minimizing contaminant levels in feedstocks and finished product at compost facilities.

Thank you,

Neil Edgar
